### Development of observation technologies for future projects in SGEPS

# Satoshi Kasahara[1]; Mamoru Yamamoto SGEPS future survey working group[2]  
[1] ISAS/JAXA; [2] -

The SGEPS future survey working group has been preparing a document on the future directions and plans of the geomagnetism, earth, planetary, and space sciences. In this presentation, we will review important observation technologies essential for future SGEPS projects, based on the survey by the working group.
